

ASUS Malaysia is launching the ZenFone AR this afternoon and it's the world's first smartphone that's Google Tango AR and Daydream VR enabled. It's also the world's first phone to be announced with 8GB RAM earlier this year.

Being a feature packed device, you should realistically expect the ZenFone AR to cost more than the [ASUS ZenFone 3 Deluxe](#) that was [announced](#) with a starting price of RM2,599. Instead, it costs more than that. Even more than the [Samsung Galaxy S8+](#)

[COMING SOON!!] Asus Zenfone AR(ZS571KL) 8GB/128GB ROM
