Sarawak Agricultural park

A 50 hectare park located adjacent to the Sibiew River about 15 minute drive from Bintulu Town. Here you can ogle over 20 types of wild plants, an array of orchids, 77 species of fruits, and flocks of sheep, just an experience to remember by.

Snug yourself comfortably in the rustic charm of an all belian (ironwood) amphitheatre and experience walking along the hanging pedestrian bridge within a preserved and enriched tropical jungle.
