A truly 3-D game

Most young people because of its fashion attire system and smooth game playing have played it. With almost unlimited variety of clothing ranging from wedding and evening gowns to sexy and sporty attire, it becomes a powerful pull for young generation to play the game.

Appearance Customization System makes it possible to change character's hairstyle, facial shape, skin color/tone, body shape to resemble you or your favourite movie stars. This makes game playing more interesting.

It also allows players to create ideal online virtual home with vegetations as well as rivers, lakes, mountains and more. You can also add courtyard, corridors and furniture and invite your friends over.

If you have been dreaming to fly and touch the clouds and exploring the world above, you can do so in this 3D game world. You can chat while playing this online game too and making new friends.

This game allows two game characters of opposite genders to ride a lion or pet together or flying on a sword with male carrying a female character. So far no other online game has such feature to enhance players' imagination and creativity.

You can also click on the Radio option in the game and listen to its network broadcast.
