

Rajang River Log-jammed in video

Thursday, 23 December 2010 21:04

Managed to locate the log-jammed in video in youtube.

It shows how serious is the situation.

After you view the video you can view the related video at youtube. Shocking, isn't it? It shows how caring the authority. Isn't it time to call for total ban on timber logging and export to protect our environment?
