

Con-lady at work again?

Thursday, 06 January 2011 12:25

Receiving calls from Chinese lady recently? By any chance her calling telephone number is 85230788828?

Obviously such number is not under any Malaysia telephone or mobile phone companies. However, such scam re-surfaced from time to time and there is no way to stop them to prevent more Malaysian fall victims to such scheme.

Some of my friends talked Bahasa Malayu to them while others talked English to them so that they won't call back any more. For myself I would terminate the phone call right away.

Chinese New Year is near so is the new trick to make you part with your money. Beware of the trick.
